THE REAL MEDDLERS.

The sharers in the benefits of monopolies "otest against "meddling with the tariff," hat business wants, they say, is stability. No public question can be settled until it settled right. There can be no stability

thout justice. It is not right to raise \$100,000,000 a year in coss of the Government's needs. It is

just to tax the people unnecessarily. The real "meddlers" with the tariff are te men who forced it up to a war basis and eve refused to reduce it. The Republicans ve five times "tinkered" the tariff since to close of the war, and yet it still covers ver four thousand articles and is within oint of the war maximum.

This is the Ohio way of dealing with a bank recker and robber.

No Western Reserve Judge interposed to stay the execution of the law. No Judge of a igher court, in chambers remote from the ial, interfered to save the rich robber. No 'chest court solemnly set aside the trial cause too much proof of the criminal's milt was admitted in evidence.

The Quaker City has adopted high licens a protection against liquor. Why should not try some measure of restriction for 270?

HYPOCHONDRIA.

Hypochondria is now said to be the cause the suicide of the youthful millionaire, DND.

Hypochondria is nothing more or less than a aggravated case of "the blues." It is a bry common complaint of young noodles with more money than brains and no good

apployment for either. The case is another illustration of the fact

that a ready-made fortune is a misfortune to FROM BOX-OFFICE AND STAGE the average young man. The hard scrabble is the best thing for nine boys out of ten, whether their fathers are rich or poor. The strength of character and self-reliance that comes of a Spartan training are worth more than millions, for they can achieve millions and much beside of far greater value.

The best medicine for hypochondria is hard work.

ERE is something about the financial suits of little Josef Hofmann's tour. His father, who occasionally does a duet with the prodigy, recently /told a friend in this country that the contract between Messrs. Abbey, Schoeffel & Grau and himself gave him \$12,000 for the season, This will make about \$100 a performance for young Hofmann's father. As

the average receipts at the Metropolitan Opera-House for the Hofmann concerts have been more than \$4,000 per concert, it will readily be seen that Messrs, Abbey, Schoeffel & Grau will make a neat little sum on the prodigy. It is said that Mr. Abbey recently refused \$10,000 cash from a prominent theatrical manager for onequarter interest in young Hofmann's season. The prodigy will undoubtedly do a big business in the West, though it is not thought that he will beat his New York record, which has been phenomenal, as every one who has break-down would be a great loss to the labor heard the juvenile pianist will agree that it should rightly be.

heard the juvenile pianist will agree that it should rightly be.

Miss Minnie French, the pretty little lady who played the part of Innocent Kidd in "The Parlor Match" at the Grand Opera-House last week, had an amusing experience during that brief engagement. One of the patrons of that theatre sent her a letter, beginning, "Dear Little Miss French," congratulating her on her success, and saying how he had enjoyed her performance. Now, Miss French is certainly aware that she looks younger than she really is — most women are aware of such a fact—but she had never been mistaken for a child before. She did not answer the letter, and an enormous French china doll was shortly forwarded to her with a letter which the writer asked her to acknowledge. He got the acknowledgment. It came in the form of a courteous note from Charles Evans, saying that his wife had duly received the beautiful doll, which she intended giving to her little boy Evan, who was five years old. Miss Minnie French, though the fact is not generally known, is Mis. Charles Evans. She is woman enough to feel immensely delighted at the mistake. Miss Lotta often had such experiences.

Miss Julia Marlowe, who appeared as "Juliet" at the Star Theatre last evening, is the niece of the veteran manager, Col. R. E. J. Miles, and was born in England. Col. Miles's sister-in-law, Miss Dow, whom for the last twelve or fifteen years the manager has been accustomed to look upon as the best stage manager in the country, was the first to recognize Miss Marlowe's ability. He took the young girl in hand about three years ago, and since that time Miss Marlowe has studied and rehearsed on an average something like six hours a day. time Miss Marlowe has studied and rehearsed on an average something like six hours a day. Miss Dow was intensely anxious about the result of her young charge's debut at the Bijou Opera-House some weeks ago, and was far more nervous than Miss Marlowe herself. The young actrees, after playing this week at the Star Theatre, will 'rest until after the holidays, when she will make a tour of six weeks under Col. Miles's direction. Next season she will be regularly brought forward as a star, time having already been held for her in the principal cities by energetic Mr. W. W. Randall.

"Dreamland" is certainly a charming vol-ume for children, though the stories are not conspicuously modern. The most "modern' tale is that which deals with the mermaid who was afraid of getting caught because she knew she would be exhibited in a Bowery museum, though she wouldn't mind being shown in Broadway for a dollar and a half. "Dreamland" is nicely illustrated by Alfred Thompson. If Mr. Thompson would only confine himself to illustrating books, instead of trying to write librettos for comic operas!

The cast of the burlesque called "Faust, The cast of the burlesque called "Faust," which is shortly to be produced, will include Miss Fay Templeton as Faust, George Fortescue as Margaret, A. S. Phillips as Menhistopheles, Louise Paullen as Sibyl, James Maas as Valentine, and Harry Allen as Martha. The burlesque, it was said the other day, would be given at the Fourteenth Street Theatre, but that scheme fell through as theatrical schemes have a way of occasionally doing. It will probably be given for a brief run at Niblo's and then taken out of town. E. A. Stevens is to manage the production, and John G. Sterrett, a Philadelphia broker,

"Under the Lash," a play of an ultra melodramatic order, was produced at H. R. Jacobs's Third Avenue Theatre last night. Miss Helen Vincent, in the rôle of Marie, a blind girl, insue the success of the evening. "Under the Lash" will draw large audiences.

Leopold Jordan, a London dramatic author, gave a number of artistic humorous representations before a well-pleased audience at the Charry Fair at the Old London Street hast evening. His imitation of a cornet solo and his humorous interpresation of a grand opera were particularly well reselved.

The "Orchestra Electrique Infernal" was the principle leature of the entertainment at Tony Pastor's Theatre last night, and it was managed with wonderful effect by a young woman calling herself Miss Dot d'Alcorn. Mrs. Lanstry as hanghty Lens Despard at the Grand Opera-House in "As in a Looking-Glass" last night established herself in the affections of the susceptible west siders. "As in a Looking-Glass" will be in its present quarters for a fortnight, and the financial prospect is promising.

He made his debut last night in a Chopin walts, ose of Schulhoff's masour-kas and an improvised theme with novel effects. The boy is decladely clever and modest wihis! His execution was capital and his touch sure. He was recalled several times. Lew Dockstader has a new and side-spitting song about the Sundayschool boy, which brings down the house, and Frank Howard has just added "Only a Blue Bell" to his pleasing repertoire.

Probable Result of the Voting for the Rival

Men have come and men have gone, but the Masonic Fair continues uninterruptedly. Yesterday began the last week of this most worthy entertainment. It has been suggested, and the suggestion has received substantial indorsement, that the fair remain open another week, but although nothing definite has been done it is safe to say that Saturday night will see the close of this most successful undertaking.

The Executive Committee meets either tonight or Wednesday, and then the matter will be submitted and acted on. The pretty attendants are anxious for another week, and although their labor has been constant they are eager to continue it. The solid members of the committee, however, as they look at the undiminished crowds thronging the hall, greater now than a week ago, have almost decided that the tireless though persistent workers need read.

greater now than a week ago, have almost decided that the tireless though persistent workers need rest.

"It's all well enough," said one lodge member, "for those who stroll about the hall to want the fair continued, but I fear it's presuming too much on good nature to ask for any more of our young ladies' time."

Despite this fact, and the fact as well, that sales of articles are being made all the time, the stock on the various tables seems undiminished. Indeed, the variety appears greater now, and should one be in a dilemma as to to the choice of a Christmas present to his best girl, all he need do is to visit the hall, glance about the tables, with their burdens of pretty things, and he is certain to find something to suit his fancy.

Whatever in the world will be done with them all, is a question. Should the fair close Saturday, it is likely that on that night an auction sale of the goods remaining will be held.

There is no lack of interest in the voting or

anction sale of the goods remaining will be held.

There is no lack of interest in the voting or in the work of filling books. It is here that the interesting point will be raised as to the disposition of the articles sold by chances. Nothing that has the appearance of lottery will be allowed, and the ingenuity of the Executive Committee, which will probably decide how the goods will be disposed of, will be put to the test and the decision awaited easerly.

On the voting list the Rev. C. L. Twing leads for the gold watch. A veritable dark horse, in the person of R. A. Haynes are close on each other in the tug for the jewel for the most popular

and A. B. Haynes are close on each other in the tug for the jewel for the most popular lodge member.

H. S. Herman will probably get the Master's jewel. For the diamonds to be given the most popular young lady, Miss Carrie Samuels is still in the lead. A new candidate, Miss T. Munroe, is not far behind, and the contest between them will be interesting. E. E. Van Saun and G. W. Brundage are striving for the cane to be given the most popular Junior Warden, with the voting slightly in favor of the former. A. Newberger will be likely to get the Past Master's apron.

Mrs. E. B. Harper is in the lead, for the chair to be awarded the most popular Master Mason's wife. J. Hoole will probably win the cake and Joseph Britton the sword.

The Seventh Regiment seems the most popular in the voting for a stand of colors, and Chief McCabe the most popular fireman in the balloting for the gold badge.

Last night there was a musical entertainment in the Commandery Room, given under the auspices of the German District. The artists included Mme. Horemann-Koener, Miss Leonors Chapsan, Charles Kaiser, Ch. E. Dufft, N. Horemann and Fred F. Kropff.

It Will Probably be Argued in the Court of Last Resort in January.

Peter Mitchell, of counsel for ex-Alderman John O'Neill, said to-day to a WORLD reporter that the appeal in that case would probably not be argued in the Court of Ap peals until the middle of January.

The printing in the case is not yet com-pleted and the court will soon take its holi-day recess, so that it is hardly probable that the case can be reached before next month, "I have not examined the decision on the Sharp appeal and cannot now say whether we will be able to avail ourselves of any of the points passed upon by the court in that case," said Mr. Mitchell. "We are rather relying upon the general fallibility of Judge Barrett's decisions in the matter of the admission of evidence and his refusal to

ATTRACTING BARGAIN HUNTERS.

An Enterprising Scheme Worked by a Dealer in Cheap Clothing.

It is not an uncommon thing to see hucksters in Park row pushing hand-carts laden with handkerchiefs, neckties, towels or other small stuff bearing a legend announcing that they are being sold for less than nothing because they were damaged at sea in a wreck or

Generally the thoughtful reader of the announcement learns for the first time in read-ing it that there has been any such accident. The idea is ridiculous, but it is a fact that the statement that the goods have been thus damaged makes a readier sale for them, be-cause buyers imagine that they must be sold cheaper than if they had not been on the

broken ship.

An instance of the value of "Damaged" as a trade mark is now to be found in the Bowery. The other day sn upholsterer in that wonderful mart was burned out and the front of the building bears strongest ev dence of its recent experience in blackened walls.

Hardly had the underwriters performed their work before an enterprising dealer in the cheapest and most worthless hand-medown clothing rented the store and filled it with his wares. Now the whole building is placarded "Fire! Fire! Fire! \$50,006 worth of damaged clothing must be sold, regardless of cost!" A thriving trade is being driven there with "bargain" hunters.

Does Mr. Welch Really Mean This? The ladies connected with the children's home at White Plains are sending out for contribution toward erecting a hospital in North street, one of the most aristocratic neighborhoods of that town. One of these letters fell into the hands of John Welch, a New York grocer. He preserted a lette to-day to a prominent society lady in New Rochelle, who had asked for his contribution Rochelle, who had asked for his contribution, inclosing a check for \$100, and saying that he takes great interest in the colored people, and that he is thinking of building a hospital for them in New Rochelle near where this lady lives, and that connected with this hospital will be a home for poor pickapinines who are unable to get a home elsewhere. Mr. Welch says that he means business.

ST. STEPHEN'S TO THE POPE

PETER'S PENCE LARGER THIS YEAR THAN IN 1886 UNDER DR. MGLYNN.

Test Which was Looked Forward to by the Silenced Priest's Friends and Which Did Not Result as They Expected-Exthe Collection was a Representative Or

For weeks the supporters of the Rev. Dr. McGlynn among the parishioners of St. Stephen's Church looked forward to the Papal collection in the parish to prove that the defection caused by the silencing of their favorite priest was of so extensive a character that it was crippling the finances of the church. It was also expected to prove the esentment of the people of the parish towards the Papal See for its action in the McGlynn

Last week the official announcement of the Peter's pence collection in the Archdiocese of New York was made, and it was discovered that St. Stephen's had contributed \$1,118.47

of the \$37,500 collected. This took the McGlynn faction by surprise

of the \$37,500 collected.

This took the McGlynn faction by surprise, for it had confidently expected and asserted that the St. Stephen's collection would not be more than \$200 or \$300.

Some explained the amount on the score that it is the Pope's jubilee year and the contributions would naturally be larger. Others did not hesitate to openly charge that the politicians had banded together to help Father Colton out in the matter of this collection, and that Tammany Hall had contributed \$500 of the amount, while \$300 of it could be traced directly to County Democracy sources. Still others accounted for the large collection by saying that two prominent ladies of the congregation, Mrs. Iselin and Mrs. Dr. Burt, had collected the major portion of it outside the parish and had turned in the result of their work in a lump, it being added to the actual collection, which they said was but little more than \$300.

The Rev. Father Colton was questioned by a Wonlld reporter on the subject. He said:

"Yes, we had a large Papal collection. Our parish was fifth in the diocese. And what was particularly gratifying about it was that it was a thoroughly representative collection. The largest contribution was \$50, and there were three such.

"The balance was in small amounts. Nothing was collected outside the parish, and neither Tammany Hall nor the County Democracy added their mite. I wish they had given the sums they are reported to have given; then I would have been able to show a much more respectable collection in the matter of size.

"As it is, the amount collected was three times as great as that raised for the same purpose last year."
